

19 January 1981

DD/SPM

Skip, would you please provide me with all OS requests for approval of any activity regulated by EO 12036 since 24 January 1978 (or activity since that time covered by EO 11905 in the absence of EO 12036 procedures) to include:

- physical surveillance
- electronic surveillance
- electronic and mechanical monitoring
- physical search and mail
- assistance to law enforcement agencies or personnel

I also would like to see all such executed approvals and any other documentation generated by the approval process.

And finally, I would like to see any records concerning the temporary detail of agents to the Director of Security or DD/PSI for support assignments.
